ABOUT ME

Mobile Application Developer specializing in Flutter and Native Android development. Experienced with all stages of the development cycle for Mobile development. Well-versed in numerous programming languages, including **Dart**, **Java**, **Kotlin**, and **XML**.

WORK EXPERIENCE

FLUTTER || ANDROID DEVELOPER – NEXTEK SOLUTIONS – 01/03/2022 – Current – LAHORE, PAKISTAN

- Served as Acting Team Lead while leading the development of cross-platform mobile applications using Flutter
- Led architectural planning and implementation of Clean Architecture with Riverpod for scalable, maintainable applications
- Designed and implemented offline-first data synchronization systems for reliable online/offline user experiences
- Coordinated with stakeholders and developers to integrate APIs, Firebase services, and biometric authentication solutions
- Mentored junior developers through code reviews, technical guidance, and best-practice adoption
- Contributed to technical decision-making, project estimation, sprint planning, and overall mobile architecture strategy
- Facilitated team collaboration, task distribution, and delivery tracking to ensure timely project completion

ANDROID DEVELOPER – SOFTVALLEY SOLUTIONS – 01/01/2022 – 08/10/2022 – LAHORE, PAKISTAN

- Developed and maintained Android applications using **Kotlin & Java**
- Worked with REST APIs, local databases, and third-party integrations
- Improved app performance and resolved production issues

JUNIOR ANDROID DEVELOPER – ELOGICS PVT LTD. – 01/08/2021 – 28/02/2022 – LAHORE, PAKISTAN

- **Developed a complete ERP mobile application from scratch** for business operations
- Designed and implemented **scalable architecture using MVVM principles**
- Integrated multiple modules including **user management, data tracking, and reporting**
- Built robust **REST API integrations using Retrofit**
- Implemented **local data storage using Room/SQLite** for offline support
- Collaborated with backend team to design efficient APIs and data flow
- Focused on **performance optimization, stability, and clean code practices**

INTERN ANDROID DEVELOPER – MYSTERY TECHSOL – 01/01/2021 – 31/03/2021 – LAHORE, PAKISTAN

- Learned Android fundamentals and assisted in feature development
- Gained experience in UI design and API integration

PROJECTS

CURRENT

Verby

Verby is hotel employee management Flutter application that provides biometric,attendance tracking, and workforce management. Verby enables hotel staff to check in/out, take breaks, and manage their work schedules using face recognition technology for secure authentication. Offline capability with data synchronization

Storybirds

Storybirds is a Flutter mobile application that connects storytellers with listeners through personalized audio stories.The app enables users to either record and share custom stories for loved ones or listen to stories sent by family members and friends

X Puzzle

X-Puzzle is an engaging math test app featuring interactive puzzles where players find two numbers that multiply to the target product and add to the target sum. With multiple difficulty levels, timed challenges, progress tracking, and Firebase authentication.

Super Horn

Super Horn is a Flutter-powered air horn app that blasts crisp, customizable sounds and animations. Connect via Bluetooth, browse a library of horns, trigger instant effects, save favorites, and enjoy a playful, responsive UI with offline support and Firebase sync.

OtherMind

A social media app with audio/video calling, as well as messaging services, is a mobile application that enables users to connect with one another and share content in a more personal and interactive manner.

PinPoint Works

The Project Management app was built in 2014, but now I'm refactoring this app to the latest technology and maintaining the live build.

FFCCloud

FFC Cloud is an Android mobile App ensuring strong controls on field operations including Field Marketing, Field Sales, and Field Collections & Recoveries.

SKILLS

Android | Flutter | Android Jetpack Compose | Android JetPack, | MVVM | Clean Architecture | Kotlin | JAVA | Dart | SQLite | Postman

EDUCATION AND TRAINING

2015 – 2020 Lahore, Pakistan
SOFTWARE ENGINEERING University of Management & Technology (UMT)

LANGUAGE SKILLS

Mother tongue(s): **URDU**

Other language(s): **ENGLISH**
